- Excursion to ESTEC space centrum in the Netherlands together with the BNS-YG
- Participate in the workshop "lobbying" during IYNC 2008

(up to 1 page. may contain photographs, etc.)

General information about national YGN organisation:

The Dutch Young Generation (DYG) network has started again in 2002 with a new board after a few years of inactivity. Since 2002 the board is trying to inform and recruit people working or interested in the field of nuclear power. The members of de DYG are enthusiastic and there is a great attendance. Since the start the number of members increased from 40 to 65 at this moment. This year a major part of the DYG board will change and we are seeking for suitable candidates.

(up to 1 page. may contain photographs, etc.)

Plans for upcoming period:

Together with our mother society we organize three symposia during 2009. Announcement on the website www.kerntechniek.nl

We are planning to have symposium about (nuclear)energy together with the young engineers from an electricity company in the Netherlands, scheduled for Q4/2009

More plans are in preparation

Announcements of events of for the next period:

(national or international event that deserves to appear in the YGN calendars)

Ideas on the ENS YGN organisation:

Proposals for the future ENS YGN activities:

Proposals for the next ENS YGN Core meeting agenda:

Proposals on how to improve this form:
