General information about the national YG network:

The Dutch Young Generation (DYG) network has started again in 2002 with a new board after a few years of inactivity. Since 2002 the board is trying to inform and recruit people working or interested in the field of nuclear power. The members of de DYG are enthusiastic and there is a great attendance. For 2007 the effort will be used to organize the European Young Generation Forum in Amsterdam in 2007.

(up to 1 page. May contain photographs, etc).

Activities of the national YG network for the time period given:

2007

- The DYG has now a media working group. This group acts on actual nuclear related topics in the Netherlands.
- The DYG will organize the next European Young Generation Forum in Amsterdam 5-10 June 2007. This will take a considerable time in planning. The topic of the workshop will be "The Nuclear Future".
- Preparations for the EYGF2007 are ongoing and the status will regularly be distributed to the core members by email.
- The DYG will participate in the organization of a German YG meeting by the end of this year in Gronau.

(up to 1 page. May contain photographs, etc).

Plans for upcoming period:

- Set up an email list to inform the DYG members more frequently about DYG activities and e.g. symposia.
