

# REPORT ON ACTIVITIES, 1999

## ROMANIAN YOUNG GENERATION

### STATUS

The Romanian YG is fully integrated in the Romanian "NUCLEAR ENERGY" Association (AREN) and its chairman is member of the AREN steering committee. Members of the Romanian YG are young engineers, scientists and university students up to 35 years old. The network consists of about 20 registered members and all of them are also members of AREN. The steering group of Romanian YG has the following structure:

**Chair:** **Mihnea Serban ANGHELESCU** (ENS YGN core member)  
Center of Technology and Engineering for Nuclear Projects

### ACTIVITIES ON 1999

The most important activity of Romanian YG was participation in the International Symposium on Nuclear Energy 1999, organised by AREN, which took place in Bucharest, 15-16 October. At the session "Public Acceptance of Nuclear Energy", a paper about activities developed by ENS YGN was presented by the Romanian YG Chair.

Another activity of Romanian YG was participation in the Nuclear Energy Days 1999, which consisted of children's paintings contest on theme "Environment and Nuclear Energy" and "Ionel Purica" prize award for the most important contribution to the nuclear field development in Romania. Also an exhibition about peaceful uses of nuclear energy in the world, operating performances of Cernavoda NPP Unit 1 and completion of Cernavoda NPP Unit 2 was organised.

It should be also mentioned participation of Romanian YG in the National Symposium on Public Information about Peaceful Uses of Nuclear Energy 1999, organised by Romanian National Agency for Atomic Energy (ANEA).

### ACTIVITIES ON 2000

- Participation in the Nuclear Energy Days 2000, the main annual activity of AREN. The event will have a particular significance because we celebrate 10 years from AREN foundation.
- Participation of two members of Romanian YG in the International Youth Nuclear Congress 2000, Bratislava, Slovakia, April 9 – 14, 2000
- Set up the AREN web page with a special section dedicated to Romanian YG
- Set up the AREN library
