Editorial

EU: the case for more nuclear R&D **6**

Letters to the Editor

Belgian radwaste chief issuing challenge on nuclear perspectives. **9**

Member Societies News

Czechs and Slovaks celebrate. Hungarians issue proceedings. Britons report on radwaste. Belgians plan conferences. French choose new chairman. **11**

Massachusetts serenades Czechs and Slovaks

Corporate Members News

Eagle-Picher expanding. Siemens makes 10-millionth fuel rod. Skoda wins I&C work. Framatome Cogema Fuels to reload US North Anna. NAC implementing IT at Mexican NPP. **12**

French CGN's new chair and chief executive Jean-François Rezzi

World News

Western Europe Germany retires its oldest reactor – "Atomic Egg" – at 43. French assess economics and ecology of plutonium recycling. Swedish minister says 2001 too early to close Barsebäck-2. More UK cash for nuclear clean-up in ex-USSR. **15**

Eastern Europe Ukraine into phase two of strengthening Chernobyl encasement. Lithuania seeking bids to decommission Ignalina-1. Russia planning to manage foreign spent fuel; forming single nuclear utility; aiding Armenia. **17**

Africa Why South Africa is planning pebble-bed modular reactors. **18**

Asia Japan okays more power reactors and hears public on plans. India's new multi-skilled Mr Nuclear. Russia partnering Chinese FBR and discussing North Korean PWRs. South Korea begins two more PWRs. **19**

USA Utilities ride surging tide of mergers, alliances, joint ventures. **20**

Fuel Secondary supplies: are they here to stay? **21**

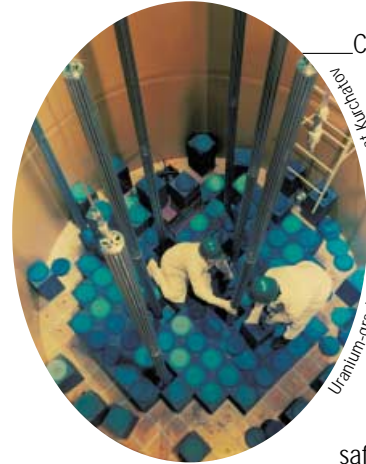

Exxon BWR pioneers Dave Nicholls, Johan Slabber, Dieter Mätzner

Features

Toward a European Research Area in nuclear energy **23**

Strategic planning to meet national priorities in nuclear research & tech **26**

Cross-borders nuclear research at Russia's Kurchatov Institute **28**

East-West nuclear safety research **30**

Cooperative R&D amid competition **32**

Cover Story: flagship research facility for nuclear fuel cycle industry **34**

Radiochemistry research: new industry-university partnership **36**

French aims and programs on long-term behavior of HLW packages **38**

Developing database programs for MOX fuel performance & licensing **40**

Optimizing radiation protection in nuclear and non-nuclear industry **42**

Integrating social sciences into Belgian nuclear research **44**

Conferences 37/46
