

# REACTOR PROJECTS REVIEW

# CONTENTS

Vol. XXI, No. 1-2, January-February, 2001

Prof. Hugo van Dam (Delft, NL)

## Opinion

Challenges: emerging nuclear energy systems and sustainability. 6

## ENS News

Key staff changes at secretariat. 9

## Member Societies News

ICRP chief on shaping new radiation guidelines. UK conference on managing radiation dose. German seminar on spent fuel interim storage. New French-English nuclear dictionary. UK volume on nuclear transport. 10

## Corporate Members News

Siemens equipment for Lithuania, Finland, Taiwan. SGN installing Dutch storage facility. New vice-president at USEC. 13

Westinghouse new v-p European Operations: Jeffrey Pelusi

## World News

**Western Europe** At-a-glance guide to Framatome-Siemens nuclear merger. France not yet ready to order EPR. Belgium's "no-to-nuclear" government hears "yes" from its expert commission. Finland set to be first to build a spent fuel repository. 14

**Eastern Europe** Ukraine: The End at Chernobyl, a New Beginning at VVERs. Completing simulators in Czech Republic, Slovakia, Russia, Armenia. Upgraded Armenia-2 is back on line. 16

**Asia** Australia opens its first ISL commercial production of uranium. Japan starts extra R&D on advanced centrifugal separator and begins detailed design of MOX factory. Western Europe to supply HVAC for China's VVERs. South Korea to add more PWRs at Wolsong. French nuclear counsellor goes to Beijing. 17

**USA** Pilgrim's progress with new-type simulation. Yankee Rowe and Maine Yankee first-of-a-kind deals for decommissioning and storage. 19

**Fuel** Magnox to MagRox: David Fishlock looks at a BNFL key development. 20

Counsellor Daniel Chavardès

## Progress Reports

Planning Europe's EPR 21

Brazil's Angra-3: case for completion 22

China's Ling Ao PWRs: ready 2002-03 23

**Cover Story:** China's Qinshan III PHWRs 24

India's NPPs program: overview 25

Iran's Bushehr VVERs 26

Czech Temelin VVERs going on line 27

Designing Japan's APWRs 28

ABWRs: East Asia, Europe, US 29

Assessing Canadian NPP for revival 30

Networking toward a European HTR 31

FRM-II: German new research reactor 32

Final fitting of beam-line SR7 at FRM-II

## Analysis

Chernobyl 15 years after accident: assessing radioactivity release 34

## Web Features

Modernizing VVERs 36

## Readers Service 38
