

# Nuclear games

## Operational experience

Get the table right:

Event, year, photo,  
consequences, business  
impact

(Thanks EDF Energy for the idea!)

## SCRAM

Get the figure right:

Scales and curves

## More fun:

## BWR Pump Poker

Each player starts with 8 cards

Get a combination of:

- Pump type
- Pressure ("tryck")
- Flow ("flöde")
- Pump curve

that makes sense in any position.

Convince the others it works!

If successful, place out the cards  
and take 4 new ones.

If you cannot make a realistic  
pump, take up another card.

Continue until all pumps out.
