

Job Shadow Program Overview

Keith Allen

Manager, New Plant Training

Annette Project Workshop for NESTet 2016

May 25, 2016

Job Shadow Program-What was it?

- Program to familiarize select Chinese AP1000 nuclear plant staff with how a high performing US nuclear station works.
- 60 Chinese guests assigned to US Host Sites for 60 days
 - Guests split between 5 different nuclear stations
- Set program of reading, activities and interviews to complete based around WANO Performance Objectives and Criteria.
 - Information Exchange based on Process and Procedures
- Focused on building strong nuclear safety culture among middle level managers and first line supervisors.
- Program was very successful based on post program evaluations and assessments during training programs.

Job Shadow to Completion of Licensed Operator Training
